Water Meters in Use.

The City Water Board some time ago commenced putting water meters in at prominent manufacturing establishments and other places where water is largely consumed. It is understood that it is not the intention to use them on the service pipes of families, but merely on pipes supplying places which consume a large amount of water in business, and where it is difficult to fix a rental without some definite idea of the amount of water consumed in a type time. vater consumed in a given time. A Pleasant Outing on the River.

A pleasant yachting party took a jaunt up the river last evening in the Naptha Yacht Company's yacht Marguerite, with Miss Mary Smythe as hostess. The outing was in honor of one of the lawn tennis clubs, and was a most enjoyable affair throughout, a lawn party at the residence of Mr. I. G. Dillon, on the Island, following the yacht ride. Such events bid fair to be exceedingly popular in Wheeling society this summer.

Abolish the Low Awnings. The nuisance of low awnings again

causes continual kicking. A lady with a parasol is seriously inconvenienced by an awning that scarcely clears her head, and comes down directly in the middle of the sidewalk. A tell man has to stoop painfully to escape the frames. To permit this and prohibit signs extending more than two feet at any height is the aeme of inconsistency. There ought to be a reform in awnings. It would be very popular.

Grave Damage is Done Yesterday morning a lively little fire was discovered in a clothes press unde the attic stairs of the house at No. 2336 Market street, belonging to Marcus W. Smith, and occupied by his family and that of Charles Whitney, a Belmont mill puddler. An alarm was turned in, and the Niagara responded with its hose wagon and Babcock extinguishers. Owing to the closeness of the quarters and the dense smoke, the Babcocks could not be used with success, and a plug stream was turned on. The loss amounted to about \$30, all the wood work and clothing in the press being destroyed. The only cause assigned for the fire was matches and mice coming in contact. For some weeks the young ladies have been making preparations for an entertainment that will possess new and novel features. It will resemble the dairy maids' carnivals which have been so successfully held in some of the principal cities. The carnival will be held in the lecture room of the church on Thursday and Friday evenings of this week, and as a similar entertainment has not yet been givenin the city it will of course be largely patronized. The following clipped from the Burlington Junction, (Mo.) Post, contains information of no little value to persons troubled with indigestion:

"For years the Editor of the Post, has been subject to cramp colic or fits of indigestion, that prostrated him for several hours and unfitted him for business for two or three days afterward. About a year ago we called on S.J. Butcher. Yesterday morning about four o'clock a brakeman on a westbound Panhandle freight train fell off the top of a car when near Mingo and was ground to death by the wheels. His head was cut off almost as clean as if done by a butcher's cleaver, both legs and his left arm severed and parts of his body badly bruised and scraped. On the left arm of the dead man, between the clbow and wrist, the name "G. H. Hickman" appears in India ink; but the Steubenville Gazette says he was on the pay roll of the Company as "G. A. Kelly." for two or three days afterward. About a year ago we called on S. J. Butcher, druggist, and asked for something to ward off an attack, that was already making life hideous. Mr. Butcher handed us a bottle of Chamberlain's Colic, Choicer and Diarrhea Remedy. We took the medicine according to directions, and not only found relief on that occasion, but have several times since tried it's virtues and found relief in every instance. We take this method of agknowledging the benefits derived and recommending the cure to all others subject to indigestion." For eale by C. R. Goetze, John Klari, W. W. Irwin, W. E. Williams and G. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus Sick overcoming the local symptoms removes the sympa. Headache thetic effects of the disease, banishes the thred mind. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat Heart- distressed me, or did me little good. In an hour burn after cating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsa-stomach rilla—took three bejies. It did me an immense alleunt of good. It gave me an rilla—took three betilea. It did me an immense arieunt of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." George A. Paoz, Watertown, Mass.
